charges on works in operation are taken into account, the result shows a loss of Rs. 30,67,532 :—

C.—FIGURES FOR WORKS FOR WHICH NO CAPITAL ACCOUNTS ARE KEPT.

5. These are works for which neither Capital nor Revenue accounts are kept or miscellaneous works. The receipts on these works are principally in the form of a share of the land revenue and are termed "Indirect" and as such are book credits, so that figures of revenue appearing in the Finance Accounts, as distinguished from the statistical statements in the Irrigation Administration Report, are very small, being

for direct revenue only, viz., proceeds from sale of water, etc. The following statement gives a comparison of the figures for the year under report and the average :—

REVIEW OF THE ADMINISTRATIVE ACCOUNTS OF IRRIGATION WORKS IN THE PROVINCE OF BOMBAY, FOR THE YEAR 1935-36.

There are 48 Irrigation works in this Province. Of these, 4 works belong to the Productive and the remaining to the Unproductive group.

2. The revenue accounts of the Irrigation works are prepared on the basis adopted in past years, viz. the direct receipts and working expenses relate to the financial year and the indirect receipts consisting of the irrigation share of land revenue and the collection charges on this share of land revenue pertain to the revenue year running from 1st August to 31st July, as Government have decided to continue the existing practice for administrative convenience.

3. The financial results of all the systems in this Province show an aggregate net loss of Rs. 31·05 lakhs during the year under review as compared with the losses of Rs. 32·95 and Rs. 28·40 lakhs, respectively, for the years 1933-34 and 1934-35. The increase in the loss over that of last year is due to decrease in the Irrigation revenue and increase in the working expenses of the Irrigation works.

In the case of the Gadikeri Tank the return for which is less than the prescribed minimum during the year the question of its transfer from the productive to the unproductive class under rule III, paragraph 269, of the Public Works Department Manual does not arise.

Productive Works.

4. During the year under review, the number of Irrigation works in this group was the same as that in the preceding year, viz. 4, 3 of them being in operation for over 50 years and 1 for 13 years. The following works have failed to yield the prescribed minimum return on the capital invested for the number of years indicated against each :—

Name of Work.	No. of years for which the return is less.
(1) Gadikeri Tank	1
(2) Shahada Channel	3

In the case of the Shahada Channel the return for which is less than the prescribed minimum for the last three successive years the question of its transfer from the Productive to the Unproductive class under the same rule has been considered and under rule V *ibid* Government have decided that the present classification of the channel, viz. Productive, should continue, *vide* Government Memo. No. 1021/27-I, dated 31st March 1936.

5. The following works have shown good results during the year, the return in each case being in excess of the prescribed minimum :—

	Prescribed minimum.	Percentage of return.
(1) Mavinkop Tank	4	5·13
(2) Ekruk Tank	4	7·28

6. In the case of the Gadikeri Tank the working expenses during the year exceeded the revenue realised and corrective measures seem necessary. The deficit in revenue was Rs. 344. There was also an increase in working expenses not accompanied by a compensating increase in receipts on this work. The details are noted below as required by Article 328 of the Account Code :—

	Working Expenses.		Receipts.	
	1934-35.	1935-36.	1934-35.	1935-36.
	Rs.	Rs.	Rs.	Rs.
(1) Gadikeri Tank ..	551	1,654	3,516	1,310

From the above statement it will also be noted that there was a marked decline in gross receipts as compared with that of the preceding year.

Unproductive Works.

7. The number of Irrigation works during the year under review was the same, viz. 44, as that in the preceding year. Of these, 39 are in operation, 4 under construction and 1 held in abeyance. 28 of these works have been in operation for over 45 years and the rest from 10 to 28 years. No works under this class yielded more than the prescribed percentages.

8. In the following cases, the working expenses during the year exceeded the revenue and steps are needed to reduce the expenses or to increase the revenue :—

Name of Canal.	Deficit in Revenue.
	Rs.
(1) Dambal Tank	39,699
(2) Medleri Tank	28
(3) Hartala Tank	313
(4) Mhaswa Tank	601

(6) Upper Man River works	2,916
(7) Ashti Tank	73,505

(13) Godavari Canal	1,21,426
(14) Futelao Tank	889
(15) Dharma Canal	1,315
(16) Nira Right Bank Canal	18,842

9. Cases in which there was an increase in working expenses not accompanied by compensating increase in receipts are noted below as required by Article 328 of the Account Code :—

Name of Canal.	Working Expenses.		Receipts.	
	1934-35.	1935-36.	1934-35.	1935-36.
